Professional Summary

Aspiring Software Engineer with hands-on experience in Artificial Intelligence, Full Stack Development, and Data Analytics through internships and real-world projects. Seeking an opportunity to apply my technical skills, problem-solving abilities, and continuous learning mindset to build impactful software solutions.

Education

ANDHRA UNIVERSITY

2023 – 2027

B.Tech in Computer Science Engineering (CGPA: 7.43)

Experience

Brainovision Solutions India Pvt. Ltd. (Hybrid)

June 2026 – July 2026

Completed a two-month Artificial Intelligence for Generation and Automation internship at Brainovision Solutions India Pvt. Ltd. (June–July 2026). Worked with Generative AI, Large Language Models (LLMs), Prompt Engineering, Retrieval-Augmented Generation (RAG), AI Agents, and workflow automation to build AI-driven solutions.

INTERNPE (Online)

July 2025

Completed a one-month Java Programming internship at InternPe (June–July 2025). Gained practical experience in Core Java, OOP, Exception Handling, and Collections while developing Java-based games such as Rock Paper Scissors, Tic Tac Toe, and Connect 4.

J2EE & Web 2.0 Technologies Intern – Rashtriya Ispat Nigam Limited, Visakhapatnam (Offline)

June 2025

Completed a one-month Full Stack Web Development internship at Rashtriya Ispat Nigam Limited (RINL) (June 2025). Developed a full-stack Employee Shift & Attendance Manager using Spring Boot, Oracle 21c, REST APIs, HTML, CSS, and JavaScript, implementing authentication, attendance, and shift management features.

Projects

VamAI – AI-Integrated Personal Portfolio

Designed and developed an AI-integrated personal portfolio using HTML, CSS, JavaScript, and GitHub Pages. Built VamAI, an interactive portfolio assistant with dynamic knowledge retrieval and context-aware conversations to showcase professional achievements.

AI Interview Simulator

Designed and developed an AI Interview Simulator that generates role-based technical interview questions and evaluates user responses using Generative AI. Implemented real-time feedback, performance analysis, and an interactive interview experience.

Employee Shift & Attendance Manager

Designed and developed a full-stack Employee Shift & Attendance Manager using Spring Boot, Oracle 21c, HTML, CSS, JavaScript, and REST APIs. Built authentication, attendance tracking, shift scheduling, and leave management following a 3-tier architecture.

Restaurant Management System

Designed and developed a web-based Restaurant Management System using HTML, CSS, JavaScript, Node.js, MySQL, and Razorpay. Implemented user authentication, menu management, order tracking, billing, and online payment integration.

Technical Skills

Languages: C, Python, JavaScript

Frontend: HTML5, CSS3, JavaScript

Databases: SQL, MySQL, SQLite

Developer Tools: MS Office, VS Code, Git, GitHub, Power BI

Achievements

- Developed and deployed **VamAI**, an AI-integrated portfolio assistant.
- Organized Campus to Core-IT at T-Hub, Hyderabad. Hosted by Brainovision.
- Organized the 2-day Build Bharat Hackathon hosted by Codium Club.

Certifications

- NXTWAVE CCBP 4.0 – build your own static website, build your own responsive website, SQL.
- AWS (Forage) – Solutions Architecture Job Simulation
- CISCO – Data Analytics Essentials
