Objective

Motivated B.Tech CSE student, Seeking an entry-level position to leverage technical skills in programming, web technologies, data analysis, and software engineering aiming for a challenging role to apply technical expertise and enhance professional growth in software development and to contribute effectively to innovative projects, continuous learning, and growth within a forward-thinking tech company

Education

ANDHRA UNIVERSITY

B.Tech in Computer Science Engineering
CGPA: 7.3

2023 - Expected Graduation (2027)

Internship

INTERNPE (Internship)

JUNE 2025 – JULY 2025

Completed a one-month internship in Java Programming at **InternPe** from June 2025 to July 2025, where I gained hands-on experience in core Java concepts such as OOPs, exception handling, and collections. During the internship, I developed interactive Java-based games including Rock Paper Scissors, Tic Tac Toe, and Connect 4, which strengthened my logical thinking, problem-solving, and coding skills.

May 2025 – June 2025

J2EE & Web 2.0 Technologies Intern – Rashtriya Ispat Nigam Limited, Visakhapatnam

Developed a full-stack Employee Shift & Attendance Manager using Spring Boot, Oracle 21c, and HTML/CSS/JavaScript in a 3-tier architecture.

Built RESTful APIs for authentication, scheduling, and attendance, and designed database schema ensuring data integrity and performance.

Projects

Employee Shift & Attendance Manager

- Developed a full-stack Employee Shift & Attendance Manager using Spring Boot, Oracle 21c, and HTML/CSS/JavaScript in a 3-tier architecture, including RESTful APIs for authentication, shift scheduling, and attendance tracking.
- Designed the database schema and built a user-centric interface with features like secure login, employee dashboard, attendance calendar, and leave management system.

Web-Based Restaurant Management and Functioning System

- Developed a Web-Based Restaurant Management System using client-server architecture, enabling menu management, order processing, billing, and payment handling with role-based access for Admin, Staff, and Customers.
- Implemented core features including user authentication, menu CRUD operations, order tracking, bill generation, and online payment integration with a responsive web interface.

Technical Skills

Languages: C, Python, Java

Frontend: JavaScript, HTML, CSS

Databases: SQL, MySQL

Tools: Word, Excel, PowerPoint, VS Code

Achievements

- Solved programming problems on platforms like *Nxtwave* to improve problem-solving skills.
- Maintained consistent academic performance in Computer core subjects.
- Organized a 2-day Build Bharat Hackathon hosted by Codium Club.

Certifications

- NXTWAVE CCBP 4.0 – build your own responsive website, build your own dynamic website , SQL, python.
- AWS (Forage) – Solutions Architecture Job Simulation
- HCL GUVI – HTML & CSS
